

# Treatt

## Another upward surprise

Despite the surprise trading statement of 23 February, which led us to raise our sales forecasts by c 10% and PBT and EPS by c 20-30%, Treatt has yet again upgraded its outlook for FY17, which leads us to raise our EPS forecasts again by c 6-9%. Our fair value increases to 401p (from 350p) as a result. The constant stream of upgrades demonstrates the strength of momentum in the business as the company moves further up the value chain.

Year end	Revenue (£m)	PBT* (£m)	EPS* (p)	DPS (p)	P/E (x)	Yield (%)
09/16	88.0	9.6	14.3	4.4	26.7	1.2
09/17e	102.1	13.6	20.0	6.1	19.1	1.6
09/18e	107.2	14.4	21.2	6.5	18.0	1.7
09/19e	111.5	14.9	22.0	6.7	17.4	1.8

Note: \*PBT and EPS are normalised, excluding amortisation of acquired intangibles, exceptional items and share-based payments.

## Strategy delivering excellent results

Treatt's long-term strategy is to deliver consistent, sustainable growth in profit through developing value-added ingredient solutions, coupled with effective cost control. Improved customer focus and closer relationships are a key part of this strategy, with the ultimate goal of delivering greater profitability by concentrating on the more value-added segments. This goal has been delivered consistently over the past few years, with results often beating expectations, and momentum is now accelerating, with more frequent and more significant upgrades coming through. As a result of the trading update, we yet again upgrade our full-year forecasts for 2017-19 to reflect the improved outlook. Our sales forecasts move up c 0-3%, while PBT and EPS increase by c 6-9%, as Treatt's move up the value chain should deliver a strong improvement in margins.

## Momentum remains strong

Trading has continued to be strong, with H117 sales c 25% above those of the previous year. A stronger US\$ accounts for part of this (c 10%), but the remainder is due to impressive organic growth. Sugar reduction, tea and citrus continue to be the key areas of focus and this is paying dividends, with particularly strong growth in these segments. The ingredients space remains attractive, with higher than average growth vis-à-vis the wider consumer space, as consumers demand cleaner labels and healthier products, but with no compromise on taste. Margins are also typically high at the value-added end as these ingredients are highly specialised and deliver key attributes to the products.

## Valuation: Fair value of 401p

Our DCF-derived fair value is 401p (previously 350p), c 6% upside to the current share price. The move is driven by our forecast upgrades and our increased confidence in the business given the positive momentum, which leads us to increase our terminal EBIT margin assumption to 15% (from 13%).

## Forecast revisions

We detail our key changes to P&L forecasts in Exhibit 1 below. We have upgraded our FY17 forecasts to reflect the excellent H117 and the strong momentum going into H2, as Treatt is accelerating its move up the value chain, and order books for the remainder of FY17 and for FY18 are accelerating upwards. We leave our FY18 and FY19 sales forecasts broadly unchanged, but continue to see potential for further upgrades. Improved sales growth should lead to operating leverage, and the move towards value-added products should continue to be beneficial to margins. Our EPS forecasts therefore move up by c 6-9%.

**Exhibit 1: Old vs new key P&L forecasts**

	EPS* (p)			PBT* (£000s)			Sales (£000s)		
	Old	New	% change	Old	New	% change	Old	New	% change
2017e	16.5	18.0	9.0	11,525	12,560	9.0	99,485	102,126	2.7
2018e	18.1	19.2	5.7	12,629	13,353	5.7	107,444	107,233	(0.2)
2019e	18.8	19.8	5.8	13,063	13,816	5.8	111,742	111,522	(0.2)

Source: Edison Investment Research. Note: \*EPS and PBT are stated on a company normalised basis, which is pre-exceptional but after amortisation of acquired intangibles and share-based payments.

## Sensitivities

Despite 60% of turnover being exposed to the 'defensive' beverage sector, Treatt has two key sensitivities, which it seeks to mitigate through the in-depth knowledge and skill base of its buying team and by undertaking an active hedging policy where possible:

- Commodity exposure: namely citrus oils, which make up c 30% of revenues.
- Foreign exchange: translation risk on US dollar profits, which it manages through hedging.
